**NEWARK
MILITANT
FORUM**

WHAT NEXT ?

The NEWARK MILITANT FORUM presents:
A Panel Discussion on

Which Way Forward for the Anti-Cutbacks Movement ?

Along with continuing actions against the cutbacks, like today's rally, we also need thorough discussions on the best ways to unite all those affected by the cuts into effective opposition. Many different strategies have been put forward. Friday night's panel discussion is intended to be an open discussion of these strategies. We invite you to participate along with the panel members and other activists in the fight to protect our right to an education. The panel members are:

- Prof. Irwin Nack - President of AFT Local 1796,
Paterson State College
- Manny Menendez - President of Montclair State
Student Government
- Richie Ariza - Co-ordinator of the Organizing
Committee Against the Cutbacks
(Rutgers-Newark) and a leader
of the Young Socialist Alliance
- Ruth Reeves - Newark Student Coalition Against
Racism and a student at Essex
County College

The members of Friday night's panel are not only knowledgeable of the effects of the proposed cuts in education; they are also leaders of the various sectors of the anti-cutbacks movement. After they present their ideas on how we can unify and strengthen our movement the discussion will be opened to the audience for questions and comments. Come and join in !
